

# Project Submission Guideline

## Setting Up Your GitHub Account

To submit your internship projects, you'll need a GitHub account. Follow these steps to set up your GitHub account:

1. **Visit GitHub:** Go to [GitHub](#) and click on "Sign Up" in the upper right corner.
2. **Choose a Plan:** Select the free plan ("Unlimited Free") and click "Continue."
3. **Create Your Account:** Fill in your information, including your username, email address, and password. Click "Create account."
4. **Verify Your Email:** GitHub will send you a verification email. Open your email inbox and click the verification link to complete your registration.
5. **Welcome to GitHub:** Once verified, you're now part of the GitHub community.

## Uploading Your Projects to GitHub

1. **Create a Repository:**
  - Click on the '+' sign in the upper right corner and select "New repository."
  - Choose a name for your repository (e.g., "MyInternshipProjects").
  - Optionally, provide a description.
  - Select "Public."
  - Choose a license (e.g., "MIT License").
  - Click "Create repository".
2. **Uploading Your Files:**
  - Click the "Add file" button or drag and drop your project files into your repository.
  - Commit your changes with a descriptive message.

## Sharing Your Projects on LinkedIn

1. **Create a LinkedIn Post:**
  - Prepare a LinkedIn post showcasing your project.
  - Include a brief description of the project and its significance.
  - Attach images or videos demonstrating your project.
2. **Tag MotionCut:**
  - In your LinkedIn post, tag MotionCut's LinkedIn page ([@MotionCut](#)) so that we can see your work.

## Submitting Your Projects

1. **Google Form:** You will receive a link to a Google Form from MotionCut.
  - Fill out the required information, including your name, email, and project details.
  - Paste the GitHub repository link into the form.
  - Include any other relevant links or information.
2. **Submit the Form:** Submit the Google Form with all the requested information, including your project links and video.
